REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: upon further consideration of the evidence in this application, the prior art does not suggest the present invention as a whole. While each individual feature of the present invention was known in the prior art (including specific reasons for performing the processes), the combination requires more skill than a routineer in the art possesses. While it would have been obvious to one of ordinary skill in the art to have applied either the heat treatment or the outer surface hardening, to perform both processes without explicit motivation to apply both, and not just individually, is beyond one of ordinary skill in the art. Therefore, the combination of Bonjean et al with the Metals Handbook Vol. 1 and ASM Handbook Vol. 5 or Bonjean et al with the ASM Handbook Vol. 4 and ASM Handbook Vol. 5 does not suggest the present invention as a whole. Thus, independent claims 1 and 9 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
